

CSP JOB SHEET

ENM-CES Recommendations,
split applications and use of
starters

ENHANCEMENT: Nutrients shall be managed as recommended by CES and using starter Fertilizers and split applications of nitrogen.

BENEFITS

- Reduction of fertilizer use with subsequent benefits to water quality.

CRITERIA

To be eligible for this enhancement payment, fields must meet the following criteria.

- Nitrogen fertilizer is applied based on tissue testing.
- A starter fertilizer is used and included in the nutrient budget to meet the overall nutrient requirements dictated by realistic yield expectations (RYE) and soil test recommendations.
- Only 25 to 35% of nitrogen fertilizer as dictated by the RYE concept is applied at or before planting.

RECORDKEEPING

In order to verify performance with these criteria, you must complete the following records.

Field	Year Crop	RYE/Soil Test Recommendation N-P-K/ac	Split Method (1,2, or 3 as above)	First Split Application Amount & Date N-P-K/ac	Second Split Application Amount & Date N-P-K/ac

Note: If fertigation is used documentation will be provided to demonstrate compliance.
